Education

Colorado College

Bachelor of Arts, Computer Science

May 2022

GPA: 3.66

Frontend Simplified

Frontend Developer Bootcamp

July 2022 – Nov 2022

Experience

Frontend Developer Internship | Certificate

July 2022 - Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team Environment

Frontend Developer Support

Sep 2022- Current

Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practises
- Utilized debugging best practises using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Portfolio Website | jorgemadrigaladan.com

- Personal website showcasing my programming skills and the projects below (with source code and live links)

Los Angeles Library ([View Project](#)) - ([GitHub](#))

- Created an E-commerce Book website using **React, JavaScript, HTML5, CSS3** best practices.
- Fetched API Requests to dynamically represent data represented it through skeleton loading states, pagination, and dynamic routing
- Included responsive and multi-platform support to enable the website to be viewed on any platform and device.

Heardfrom ([View Project](#))-([GitHub](#))

- Fetched data from Spotify API to implement a search engine for users to search top tracks of music artists
- Represented API data through skeleton loading states, pagination and dynamic routing
- Created fully responsive music discovery web app using **React, JavaScript, HTML, and CSS** best practices

Google Search Engine ([View Project](#)) - ([GitHub](#))

- Fetched data from Google Search API to sort search results
- Created fully responsive Google search engine using **React, JavaScript, HTML, and CSS** best practices

Hulu Clone ([View Project](#)) - ([View Project](#))

- Fetched data from the TMDB API to allow users to view information of trending movies/TV shows, along with category based movies/TV shows
- Created fully responsive movie app using **Next.js, Tailwind CSS, and HTML** best practices

Technical Skills

Languages: HTML5 | CSS3 (+ Tailwind.CSS, SCSS, BEM) | JavaScript ES6+ | Typescript

Frameworks: React (+ hooks) | Next.js | Material-UI | Redux

Technology: NPM | Git | Yarn | React dev tools | Firebase v9 | GitHub
